Oleney Central College
Olney, IL
The JLD Objective
The Job Location and Development Program of Olney Central College is designed to foster a cooperative partnership among students, employers and private citizens through part-time and temporary employment of OCC students.

The JLD Office operates year-round to bring employers together with students seeking part-time jobs. Students are typically employed during the academic year on a part-time basis, and often full-time during semester and summer breaks. Duration of employment and rate of pay are determined by each employer.

Benefits of the JLD Program
For Students
• Gain valuable work experience, while still in school
• Explore different career fields, prior to graduation
• Flexible work schedules
• Earn money while in school

For Employers
• No-cost, one-stop service that can provide any employer with dependable, part-time workers
• Excellent resource for finding one-time or seasonal employees
• No limitation on the number of positions an employer may list or the number of students an employer may hire

How to Use the JLD Program
Students
All currently-enrolled students at Olney Central College are eligible for the program. To apply, each student must come to the JLD Office, located in Student Services, and fill out a data sheet. The student should also furnish an updated resume to complete his or her file. The JLD coordinator will process the applications and then give students information about available jobs.

Employers
Employers who wish to list employment opportunities may do so in person, by mail, by e-mail or over the phone. Information describing each employment opportunity is required to prepare a job listing to be posted. When vacancies are posted, employer names are withheld to prevent non-student use of the service. Interested students are then given information about the position, and an interview time is arranged with the employer. Employers are asked to contact the JLD Office when a student has been hired or the position has been otherwise filled, in order for referrals to be discontinued.
