The purpose of this agreement is to clarify and set forth the essential terms between the institutions relating to curriculum requirements to be satisfied for any student attending and desiring to proceed to Palmer College of Chiropractic.

Each such student will be informed that he/she must complete 90 semester credit hours or 135 quarter credit hours of undergraduate studies. Palmer encourages students to pursue a well-rounded education with coursework that includes 24 science credits, half with labs, that may include biology (human anatomy and physiology, embryology, genetics, microbiology, immunology, cellular biology, exercise physiology, and kinesiology), chemistry (general chemistry, organic chemistry, analytical chemistry, biochemistry, toxicology/pharmacology, and nuclear medicine), and physical sciences (physics, biomechanics, and statistics).

Further, for admissions to Palmer College of Chiropractic each student must:

1. Apply one year in advance of intended starting date.
2. Meet the required 90 semester hours while maintaining a cumulative grade point average of a 3.00 on a 4.00 grading scale. Students who’ve earned 90 semester hours in the appropriate coursework with a 2.75 GPA may also qualify for admission to the Doctor of Chiropractic program.
3. Satisfy all other requirements as prescribed in the Palmer College of Chiropractic catalog.

Under this agreement, Illinois Eastern Community College may list this program in the catalog and brochure and Palmer College of Chiropractic may do likewise, provided both institutions have approved the wording of all catalog and brochure copies referring to this program.

Palmer College of Chiropractic complies with the guidelines established by the Council on Chiropractic Education (CCE), which is recognized by the U.S. Secretary of Education for the accreditation of programs and institutions offering the Doctor of Chiropractic degree. The CCE requires students to have earned 90 semester credits (or 135 quarter) with a 3.00/4.0 cumulative grade-point average for admissions into a Doctor of Chiropractic Program.*

*Applicants who do not meet the CCE Admissions requirements may be eligible under the alternative admissions track plan. This point of entry requires applicant files to be reviewed by a committee. Decisions for admissions are determined on a case by case basis.

In addition to adhering to the CCE’s guidelines, Palmer College provides priority consideration to applicants who demonstrate a strong, well-rounded academic record supported by co-curricular learning experiences. Qualified applicants will be invited to interview for placement into the program.

Palmer encourages students to pursue a well-rounded education with coursework that includes 24 science credits, half with labs, that may include biology (human anatomy and physiology, embryology, genetics, microbiology, immunology, cellular biology, exercise physiology, and kinesiology), chemistry (general chemistry, organic chemistry, analytical chemistry, biochemistry, toxicology/pharmacology, and nuclear medicine), and physical sciences (physics, biomechanics, and statistics).

Listed below is a sample of some recommended courses within the undergraduate institution’s catalog that will assist a student in selecting coursework to meet the 24 semester credits in life and physical sciences. Other course selections may be acceptable; however, Palmer strongly encourages any student who is interested in chiropractic to contact the Admission’s Department for individual guidance.

Emergency Response Plans
MEMORANDUM

TO: Board of Trustees
FROM: Terry L. Bruce
DATE August 18, 2015
RE: Emergency Response Plans

Pursuant to the Campus Security Enhancement Act of 2008, each of the colleges annually review and update their emergency plans in order to provide for the safety of students, faculty, staff and members of the public visiting campus. These plans are used for managing major emergencies and incidents that threaten the health, safety and welfare of the campus community or disrupt its programs, activities or infrastructure.

The colleges have developed Emergency Response Plans for 2015 that will replace the current Campus Emergency Plans. These Emergency Response Plan are compliant with both the Illinois Emergency Management Agency Act and the National Incident Management System (NIMS). They will be used as a guideline in conjunction with IECC policies, the Violence Prevention Plan and established emergency procedures. Procedures for specific emergency scenarios will be developed into a webpage with a link from the IECC homepage giving students, staff, faculty and others easy access to safety guidelines in the event of an emergency.

Additionally, colleges must test their emergency response and evaluation procedures annually. The colleges have completed or scheduled the following drills in 2015 to meet this requirement.

FCC Scoreboard Donation
MEMORANDUM

TO: Board of Trustees  
FROM: Terry L. Bruce  
DATE: August 18, 2015  
RE: Scoreboard Donation at FCC

Attached is an agreement between IECC and Dr. Richard Kube/The Prairie Spine and Pain Institute to donate a potential scoreboard for baseball at FCC.

FCC will be competing in softball at the NJCAA level this year and is currently working with the Fairfield park district to upgrade the park district’s softball facilities in order to be NJCAA compliant. Dr. Kube has agreed to donate a $16,500 scoreboard to the park district for the softball field upgrades, subject to conditions of exclusivity.

FCC is planning on competing at the NJCAA level in baseball starting with the 2016-2017 academic year. If FCC were to build a baseball diamond on campus within the next 10 years, the Board (pursuant to this agreement) would allow Dr. Kube/The Prairie Spine and Pain Institute the right of first refusal to donate another scoreboard for such baseball field and allow exclusive advertisement for a 15-year period with the advertisement being approved by the FCC President prior to being placed on the scoreboard.

If no such baseball field is constructed, then this agreement would expire in 10 years.

I request the Board’s approval of this agreement allowing Dr. Richard Kube/Prairie Spine and Pain Institute the right of first refusal to donate a scoreboard to FCC should the college build a baseball field on campus within the next 10 years, and exclusive advertising rights on such scoreboard for a period of 15 years after it is placed into service.

RE: Tentative Property Tax Agreement with Marathon 2015 – 2018

The Crawford County taxing bodies met with representatives from Marathon on July 30. At that meeting a tentative 4-year agreement was reached with Marathon, which set the value of their two main parcels of property for the period 2015 – 2018.

The Agreement calls for the previously negotiated EAV of $163,609,000 to increase to the 2014 current assessed value assigned by the Board of Review, which was $190,754,105. From that value there are some small projects that qualify for abatement through the Enterprise Zone. The “net” effect is that the EAV for 2015 would be $185,218,862.

In addition to the increased EAV, Marathon has agreed to a 1% escalator in the value of the property each year 2015 – 2018 and a $2 million pilot payment to the taxing bodies payable $1 million in 2015 and $1 million in 2016. The pilot payment is to be divided according to the taxing bodies’ percentage of the total tax levy. A breakdown of the tentative agreement will be provided at the Board Meetings.

Marathon has asked that all the taxing bodies provide a commitment from their respective Boards that the values assigned in this tentative agreement are acceptable. We understand that some language will need to be worked out with the final agreement. That will be done through our respective attorneys, and a final agreement will be brought back to this Board for approval once it is ready.

I would ask the Board to approve the values assigned in the tentative property tax agreement with Marathon for the 4-year period 2015 – 2018.
