

WHAT WE DO

The Information Systems Technology Program provides the highest quality education through first-rate instruction and state-of-the-art facilities. To do this, we have partnered with Cisco Networking Academy, a global networking hardware company which provides resources to educators. This ensures our students are learning the latest industry standards from Cisco Certified Instructors while working with today's most advanced networking equipment.

Instructors utilize a hands-on learning model. Students apply what they are learning to as much physical equipment as possible. This hands-on learning is completed utilizing our cutting-edge equipment.

WHAT YOU LEARN

All students who graduate with an IST Associates Degree will have a solid foundation in computer maintenance and computer networking. Those in our Associates in Applied Science Degree will have the opportunity to specialize in either Network Administration or Cybersecurity.

Students who excel in our program will also be prepared to take multiple industry certification exams, which help to distinguish them from other candidates looking for exciting positions in the IST field. These certifications include, CCENT, CCNA: Routing and Switching, CCNA: Security, CCNA: CyberOps, and CompTIA A+. (Actual certifications depend on study concentration chosen).

CAREERS

Information Systems Technology is used in almost every field. Computers and networking are vital to the health care industry, non-profit corporations, the military, governmental agencies, professional sports, and many more. This gives graduates the flexibility to practice a profession that they love in a field that they may not have been able to work in otherwise.

A graduate from the Information Systems Technology Associates in Applied Science Program will be qualified for positions such as help desk technician, network technician, cybersecurity analyst, and network administrator, among others. With the AAS and industry certifications, that the IST Program instructs students toward, there is no limit to where a student may end up.

About OCC

Olney Central College is a two-year public community college located on Ill. 130 across from the city park in Olney, Illinois.

Olney Central College offers a variety of educational opportunities with transfer degrees and technical programs that prepare our students for careers in today's competitive job market. Since its founding in 1963, OCC has been dedicated to providing students with a quality education at an affordable cost. OCC's small class sizes ensure our students receive one-on-one instruction from faculty members dedicated to their success.

OCC continues to receive recognition for its completion and graduation rates, earning it rankings as the No. 1 Community College in Illinois and one of the Top 150 Community Colleges in the nation.

In addition to its outstanding academics,

OCC offers students an active campus life. Students can participate in numerous clubs and organizations such as Student Senate and Phi Theta Kappa. Students can also attend athletic and other college-related events. The OCC Music Department includes Concert Band, Concert Choir and Jazz Ensembles, which are open to all OCC students, regardless of major.

OLNEY CENTRAL COLLEGE

Our mission:

Our mission is to deliver exceptional education and services to improve the lives of our students and to strengthen our communities.
