Welcome to IECC

Welcome to the Illinois Eastern Community Colleges' (IECC) Dual Credit Program. The administration, faculty, and staff are delighted that you have chosen to begin your college career with IECC. We hope that your IECC educational experiences are rewarding as well as enjoyable.

Dual credit courses expand student access to affordable higher education, provide challenging academic experiences to qualified high school students during their junior and senior years, and reduce the costs of a college education for students and their families. Successful completion of transfer courses will enable students to simultaneously earn college credit transferable to two- and four-year colleges and universities and to satisfy high school graduation requirements. Successful completion of career and technical courses will allow students to simultaneously earn college credits, to satisfy high school graduation requirements, and to assist in the transition to the community college or job opportunities and careers. Dual credit courses are important transitional links for high school students moving from secondary schools to colleges and universities and/or to high-skill careers.

The Board of Trustees of Illinois Eastern Community Colleges District 529 and the Boards of Education for Clay City, North Clay, Cisne, Flora, Newton, Richland County, Lawrenceville, Red Hill, Robinson, Hutsonville, Palestine, Oblong, Grayville, Edwards County, Fairfield, and Mt. Carmel High Schools developed a partnership to provide dual credit courses that are accessible and beneficial to high school students within the boundaries of the Illinois Eastern Community Colleges District.

The IECC Dual Credit Student Handbook provides information on IECC's Dual Credit Program, including contact information for the four colleges; courses and program information; dual credit eligibility requirements; dual credit rules and procedures; academic and general education information; and available student services.

It is the intent of Illinois Eastern Community Colleges to provide you with a quality dual credit program that will benefit your college career.

Sincerely,

Marilyn Holt

Marilyn Holt
Interim CEO

The mission of Illinois Eastern Community Colleges is to deliver exceptional education and services to improve the lives of our students and to strengthen our communities.

Section 2 – Information for Students

What is Dual Credit?

IECC dual credit courses are college-level courses taught in high schools or at Illinois Eastern Community Colleges (Frontier, Lincoln Trail, Olney Central, and Wabash Valley). Dual credit courses are provided to eligible high school juniors and seniors and taught by qualified instructors following the college's master course syllabi and curricula. When students successfully complete a dual credit course, they can simultaneously receive both high school and college credit. These classes are an excellent way for eligible high school students to get an early start on their college education.

IECC's dual credit courses meet all state rules and guidelines and all IECC articulated dual credit courses transfer into IECC degree and certificate programs. Currently, IECC lists all dual credit courses as "college credit" on student transcripts with no reference to dual credit. These courses may transfer to several public and private universities in Illinois.

Benefits of the IECC Dual Credit program:

- Provides high school juniors and seniors with an opportunity to take college courses and minimizes the duplication of courses taken in high school and college;
- Expands academic options for college-bound high school students;
- Shortens the time required to complete an undergraduate degree or certificate;
- Reduces the cost of higher education;
- Provides offerings in general education courses that are widely accepted and generally transferable;
- Provides a seamless transition from high school to college; and
- Provides access to college resources, facilities, and services.

Eligibility, Placement Testing, and Prerequisites

High school juniors and seniors enrolled in a course that is offered for dual credit are required to meet the same course prerequisites and requirements as college students at any of the Illinois Eastern Community Colleges. Students accepted for enrollment in college-level courses must have appropriate academic qualifications, a high level of motivation and adequate time to devote to study a college-level course. High school dual credit students enrolling in college-level courses must satisfy the same course placement tests or course prerequisites as college-level students to assure that they are qualified and prepared. Foreign exchange students are not eligible for college credit.

Multiple measures for placement are used to determine students' readiness for college-level courses and programs. Multiple measures for placement include analysis of:

1. Nationally standardized test scores such as ACT, SAT, ACCUPLACER, ASSET, COMPASS, PARCC, etc.
2. Analysis of high school and/or college transcripts including course work completed and grade point average; and remedial and/or previous college work completed.
3. If 1 and 2 are not available or do not meet the course placement requirements, additional placement testing may be required.

The colleges administer ACCUPLACER for course placement and admission into select degree and certificate programs. ACCUPLACER is a placement test used to determine students' skill levels in Reading, English, and Math and assists in placing students in the appropriate courses. Additional ACCUPLACER information, free resources, and sample test questions are available at <https://accuplacer.collegeboard.org/students>.

Admissions Process

To begin the enrollment process for an IECC dual credit course, students should first talk to their high school guidance counselor. She or he will explain the process that your high school uses to enroll students in dual credit which includes a completed student information and registration form. In most cases, IECC staff will visit your high school to register students for dual credit courses.

Expectations and Requirements

College courses are both interesting and challenging. Students should remember that a dual credit course is a college course from the college curriculum. Student course responsibilities are the same as for other college students. The teaching methods are the same as those taught at the college, and students will be expected to conduct themselves as college students. In order to be successful and ensure completion of out-of-class assignments, dual credit/college students should invest as much time out-of-class as in-class.

College courses sometimes deal with controversial, sensitive, and/or adult material. Students are expected to be prepared for college-level content.

Students should pay careful attention to their instructor's system for assigning grades. The instructor's grading system is covered in the college course syllabus that students receive at the beginning of the semester. If students have trouble in a dual credit course, it is their responsibility to talk with the instructor about ways to improve their success.

Attendance

Regular class attendance is necessary if a student is to receive maximum benefits from work. Regular attendance is the responsibility of the student. All absences and arrangements for make-up work are arranged directly with the instructor, who is responsible for determining whether the absence is excused. When the quality of work has been affected by absences or tardiness, the instructor may recommend that the student be dropped from the course. The student will be notified of the administrative withdrawal. Make up work for illness and other absences may be accepted at the discretion of the instructor.

Tuition and Fees

Currently, the cost of tuition is waived for most IECC dual credit classes. When students come to one of the four IECC campuses to participate in a dual credit offering, the students' high school will be charged a \$60 dual credit fee per student, per course. Students may also be required to purchase course material and/or textbooks or pay additional course and lab fees for dual credit courses.

Upon high school graduation, any former dual credit student who was subject to the dual credit course fee will be eligible for a \$60 per course credit toward IECC college tuition. To be eligible, the student must enroll in a minimum of 12 credit hours at IECC within 12 months of graduation from high school. The total credit the student is eligible for under this provision shall not exceed the total amount of dual credit course fee actually paid on the student's behalf.

IECC Student Services

Academic and Career Advisement

Each college offers career planning and placement assistance through the Student Services Office. Career advisors, academic advisors, and faculty are well prepared to help students with career information.

Students planning to transfer to another college or university, regardless of the program in which they are enrolled, should be aware that the receiving institution makes the final decision regarding transfer of credit. IECC advisors will assist the student concerning transferability of classes. However, the student will need to maintain contact with the transfer institution to facilitate the transfer process.

Student Financial Aid

College students enrolled in an eligible degree or certificate program may qualify for grants, loans, scholarships, or work study. Loans must be paid back, while grants and scholarships do not have to be repaid.

- **Financial Aid, Dual Credit, and Satisfactory Progress – High School Dual Credit students do not qualify for college financial aid; however, their college financial aid may be affected by college credits earned while still in high school.** U.S. Department of Education regulations and Illinois Student Assistance Commission policy require all students applying for federal and/or state financial assistance to maintain *satisfactory progress* in their course of study to receive funds.

All terms of attendance are evaluated for satisfactory academic progress, including dual credit terms and those during which the student did not receive financial aid. Courses from other colleges that have been accepted for credit by Illinois Eastern Community Colleges are also included in the evaluations. Students who have not previously received financial aid will not be notified of their status until they apply for financial aid.

Learning Resource Centers (Libraries)

Students have access to online research tools such as CQ Researcher, Facts on File, EbscoHost, Lexis-Nexis, and CINAHL via the Internet when on campus and via Entrata when off campus. The LRC's are part of the Consortium of Academic and Research Libraries in Illinois (CARLI) which gives students resource sharing of over 38 million items from 86 Illinois academic libraries.

Grades

The grades you earn in college dual credit courses will become part of your permanent college record. Dual credit courses are shown as college credit on the student's college transcript. It is important to remember that high school policies apply when awarding the high school grade for courses and college policies apply to college grades. Some transfer institutions will use dual credit grades to calculate students' cumulative grade point averages.

Withdrawing/Dropping Courses

If a student is performing poorly in a dual credit course, he or she may withdraw from that college course. In order to officially withdraw from a course, a college withdrawal must be completed. The student must contact his or her high school guidance counselor and the college student services office either in person or by phone to complete this process. Students who withdraw from a college course before the official drop date or do not meet the specific grade requirement for a class will receive a "W" (no grade) on their permanent college transcripts. If a student is failing a class, but does not officially withdraw, he or she will receive an "F" on his/her permanent college record.

A high school student who is enrolled in dual credit college courses on campus that follow the college semester calendar must complete his or her withdrawals from each course by the date printed on his or her course schedule.

However, as indicated in the policy below, a student who is not successful in a dual credit course that follows the high school calendar may withdraw from the college course after the college drop date to protect his or her academic standing. This policy (500.29) only applies to dual credit courses taught at the high school.

Policy to Protect Academic Standing of Dual Credit Students (Policy 500.29)

Date Adopted: October 20, 2015

Pursuant to the Dual Credit Quality Act, institutions may adopt policies to protect the academic standing of students who are not successful in dual credit courses. Therefore, students who are not successful in dual credit courses that follow the high school calendar may withdraw from the college course after the college drop date to protect their academic standing. Dual Credit students may withdraw with a “W” from the college course up to the last day of their high school semester.

All institutional policies relating to the academic standing of students enrolled in dual credit courses must be made publicly available by the institution and provided to each student enrolled in dual credit courses offered by the institution.

Transferability

IECC dual credit courses are college courses and may be transferrable to other colleges and universities. The general education core curriculum at IECC was developed through the Illinois Articulation Initiative (IAI) and these courses are transferable to more than 100 participating colleges and universities in Illinois. This core curriculum includes courses in communications, mathematics, physical and life sciences, humanities and fine arts, and social and behavioral sciences. The general education core curriculum is the starting point for students pursuing an associate transfer degree (60 or more semester credits) or a bachelor’s degree (120 or more credits). Be sure to talk to your high school guidance counselor and an IECC college advisor for additional information concerning transfer courses. To learn more about the IAI system and other transfer information, visit their web site at www.iTransfer.org.

IECC currently offers more than 45 career and technical degree programs and more than 90 certificate programs. Many of these programs will also transfer to a number of universities through 2+2 and articulation agreements. Examples include Automotive Service Technology, Agriculture, Nursing, Process Technology, Telecommunications, and Radiography.

IMPORTANT TRANSFER INFORMATION: High school students who plan to transfer to another college or university should speak with an IECC advisor concerning transferability of courses. Some universities do not accept courses when presented as dual credit. Dual credit courses are shown as college credit on the student’s college transcript.

Family Educational Rights and Privacy Act (FERPA)

In accordance with FERPA, only directory information about students or former students will be disclosed to any person or agency without the written permission of the student except to: (1) IECC administrators and instructors; (2) certain federal officials specified in the Act; (3) stated educational authorities; (4) accrediting agencies; (5) upon receipt of proper judicial orders; or (6) officials of other

schools in which the student seeks to enroll or has enrolled. At the request of the student, even directory information can be withheld.

Upon written request, the student may inspect information in his or her official file and will be given the opportunity to challenge any information which he or she considers inaccurate. Details on confidentiality rules can be obtained from the Admissions Office. Refer to the IECC catalog or www.iecc.edu/disclosures for additional information about FERPA.

The Illinois Eastern Community Colleges District does not discriminate on the basis of race, color, sex, sexual orientation, age, marital status, religious affiliation, veteran status, national origin, disability, genetic information, or any other protected category in educational programs, activities, admission, or employment practices. Inquiries about this policy should be made to the IECC Title IX/ADA Coordinator at 618-879-9460 or iecccompliance@iecc.edu.

Americans with Disabilities Act

IECC supports the terms of the Americans with Disabilities Act (ADA) of 1990 and according to the rules and regulations of the state of Illinois and the federal government, will make reasonable accommodations to ensure that college facilities are accessible and in compliance with employment practices. Students should make a request for special accommodations, if necessary, to their college Students Services office.

While every attempt has been made to address current State and local policies, procedures, and rules, the IECC District reserves the right to change policies, procedures, and rules relevant to Dual Credit and thus the provisions of this Handbook.

Section 3 – Frequently Asked Questions

IECC's dual credit courses meet all state rules and guidelines and all IECC articulated dual credit courses transfer into IECC degree and certificate programs. Currently, IECC lists all dual credit courses as "college credit" on student transcripts with no reference to dual credit. These courses may transfer to several public and private universities in Illinois.

What dual credit courses are usually offered?

IECC offers a full-range of lower-division general education and elective courses as dual credit including introductory courses in English composition, speech, foreign language, history, psychology, sociology, math, biology, chemistry, and physics. Career and technical course dual credit offerings include agriculture, business, computer science, automotive technology, collision repair, construction technology, graphic arts design, industrial studies, health occupations, welding, and child care.

Where are IECC dual credit courses taught?

Dual credit courses are taught either at the high school or at one of the Illinois Eastern Community Colleges' facilities. Check with your high school guidance counselor for information regarding the location of courses in which you are interested.

How are dual credit final grades recorded?

Final grades for dual credit courses will be reflected on both the student's high school transcript and on the student's permanent college record. To withdraw from a course or all courses, a college withdrawal must be completed. Information on withdrawing/dropping courses is included in detail on pages 5-6 of this handbook.

What if a student does not successfully complete a college-level course?

This is a risk for students in this program. If a class required for high school graduation is not successfully completed, the student might not be able to graduate with his or her high school class. In addition, the failing grade is recorded on a permanent college transcript.

PLS 2101 - Government of the United States
FCC - X LTC - X OCC - X WVC - X

Course Prefix and Number: PLS 2101

Course Title: Government of the United States

PCS/CIP/ID Code: 11/451001/01

Curriculum Title: Associate in Science

Curriculum Prefix: AS

Curriculum Number: D110

Credit Hours: 3 **Credit Lecture:** 3 **Credit Lab:** 0 **Credit Variable:** N
Weekly: Contact Hours: 3 **Contact Lecture:** 3 **Contact Lab:** 0 **Contact Other:** 0
(The Weekly contact hours are based on a 16 week course.)
Total: Contact Hours: 45 **Contact Lecture:** 45 **Contact Lab:** 0 **Contact Other:** 0
Is This Course Repeatable: N **How many Times:** 0

Course Description:

This course is a survey of the Constitutional government of the United States, civil rights, organizational procedures of national government, the media and public interest groups. Lecture.

Student Learning Outcomes:

Successful completers will:

1. Define and/or explain a variety of appropriate terms as they pertain to political science and government.
2. Describe the operation of the American political system of government.
3. Describe and discuss the basic document of American political history, namely the Declaration of Independence, The Federal Constitution, and The Bill of Rights.
4. Identify the different forces in our political system that have influence on policy issues.
5. Describe the political party system of the United States.
6. Evaluate and examine how the media plays a role in American politics.
7. Describe the methods of political procedures used in elections and the role of the electorate.
8. Describe issues that concern the federal government, i.e., economics, civil liberties, and foreign policy.

Methods of Instruction:

Lecture with discussion format, videos and appropriate news discussed. Americans with Disability Act - For students with disabilities, there are ADA-related support services through the Learning Skills Center.

Methods of Student Evaluation:

Tests, assignments, written papers, and participation. The following lists how each are weighted: Tests: 50% Assignments/Papers: 40% Participation: 10%

July	23	Last Day to Withdraw from 8-week Classes
July	28	Last Day of Classes
July	29-30	Finals

EXAMPLE OF DUAL CREDIT LETTER TO STUDENTS

Illinois Eastern Community Colleges

Dear Student:

You have registered for a college course(s) at (Frontier, Lincoln Trail, Olney Central or Wabash Valley) Community College through the Illinois Eastern Community Colleges Dual Credit program. At the end of the semester your grade will be entered on your permanent college transcript. ***If you do not want college credit*** for your course(s), ***you must withdraw*** from the college course.

For your information on the policy and procedures for withdrawing and dropping courses at IECC, see pages 5 and 6 of the Dual Credit Student Handbook.

We believe this program offers you many advantages including acquainting you with college level courses and encouraging you to attend college after you graduate. If you attend an Illinois Eastern Community College after graduation, courses earned as part of the Dual Credit program may be applied to appropriate degrees and certificates. To determine if the course will transfer to another college you need to check with that institution.

If you have questions, please contact the college or your guidance counselor.

Best wishes for a successful school year.

Sincerely,
