IDENTITY THEFT RESTORATION

With our team of experienced licensed private investigators, a \$5 Million Service Guarantee, and our three-prong approach to identity theft restoration, we will completely restore Participants' identities, including pre-existing identity theft related incidents, to their pre-theft status.

Restoration Preparation

Participants will be immediately assigned to a licensed private investigator. This investigator is dedicated to the Participant throughout the entire resolution process, truly creating a 1:1 relationship.

As part of the restoration process the licensed private investigator will:

- Organize details of open identity theft issues
- Explain the Participant's rights, process and responsibilities involved
- Assist in completing the necessary paperwork
- Provide a Fraud Packet which includes Limited Power of Attorney authorization
- Issue a Fraud Alert to all three credit bureaus

Restoration Process

Every identity theft case is unique and our licensed private investigators are prepared for any type of identity theft, ensuring the right steps are taken to restore a Participant's identity.

Our dedicated licensed private investigators will:

- Provide step-by-step guidance throughout the restoration process
- Issue a Fraud Alert upon receiving the signed Limited Power of Attorney, to the:
 - Social Security Administration (SSA)
 - Federal Trade Commission (FTC) and
 - Fraud Alert to U.S. Postal Service (USP)
- Search for other instances of identity theft
- Review credit history 1:1 with the Participant and verify if fraud includes items such as:
 - public records (liens, judgements, bankruptcies)
 - credit accounts (new and/or derogatory)
 - Addresses
 - Prior employment
- Work directly with affected financial institutions and credit card companies and issue Fraud Alerts to those impacted
- Restore the Participant's identity to its pre-theft status with a \$5 Million Service Guarantee.

Some identity theft incidents are more complex than others and may require additional action to resolve, such as:

- Determining if creditors extended additional credit
- Contacting creditors and collection agencies to dispute all fraudulent accounts
- Searching criminal record databases and Department of Motor Vehicle records
- Performing a Social Security trace and Death Index
- Assisting with law enforcement personnel
- Providing ongoing restoration updates

Closing Process

Our licensed private investigators are not mindlessly following a checklist, they are constantly assessing the incident and continually providing updates to the Participant. In fact, a case is not closed until the assigned licensed private investigator and Participant both agree that the issue is fully resolved.

The closing process includes:

- Verbal confirmation from both parties that the issue is fully resolved
- Providing a final review 120 days post resolution with a tri-merged credit bureau report
- Consultation to re-confirm their identity has been restored to its pre-theft status
- Written confirmation that the issue is fully resolved or re-opening the case if their identity is not restored to its pre-theft status
