

PHARMACY TECHNICIAN CERTIFICATE (PHM C337)

FCC	✓ LTC	OCC	WVC
-----	--------------	-----	-----

Pharmacy Technicians assist and support licensed pharmacists in providing health care products and medication to patients. The technicians perform a central role in the preparation and delivery of drug products by receiving and refilling prescriptions, preparing and labeling medication containers, and acting as a liaison between the pharmacist, doctor, and patient. All pharmacy technicians must register with the Illinois Department of Financial and Professional Regulation. This certificate program prepares students with the training, education, and skills necessary to pass the licensing exam available from the Pharmacy Technician Certification Board (PTCB) and being entry-level employment in the pharmacy technician profession.
